NATIONAL EXPENDITURE.

There is such a continuous howl in and out of the papers, in and out of the clubs, about the national expenditure in this country that we find much pleasnre in giving our readers the following comparative table of national expenditure, which we extract from our brother's new book, "Dictionary of Statistics."

It will be seen that, compared with Australia and the Cape Colony, the national expenditure per head in this country is extremely small; and when we take into account that the exports for this Republic give 104s per year per inhabitant against 63s in Chile, 52s in Brazil, and 59s in the United States, we cannot but think that, as compared with other nations, the national expenditure of the Argentine Republic presents a most favourable figure. The table is as follows:—

	Shillings per Inhabitant. 1850.	1881.
United Kingdom	40	47
France	35	68
Germany	17	40
Russia	13	20

Another most interesting table which we cull from this exhaustive work is the world's beef supply, and the pounds of beef per inhabitant in all the nations of Europe and America. The figures speak trumpet-tongued praise for the River Plate, which on this point is far ahead of all other countries, and yet of all the world's staples beef must be pre-eminently the first:—

THE CAMP FIRES.

Owing to the intense heat the outside camps, with long grass, are greatly exposed to fire, and in our last issue we reported the "quemazones" on the Venado Tuerto camps, which, we are happy to say, have been extinguished by the neighbours. The following letters will be read with much interest by those who have properties outside, and are of increased importance since they prove that where camps are stocked and settled on, the fire, no matter how great, can be got under when the people set to work with their 'peones' to put it out.

Had the Venado Tuerto camps not been stocked and settled on, clear it is the whole district would have been burned, but the fire was checked in time, and the damage done was consequently trifling. There is no camp district that we know of that has progressed faster than the Venado Tuerto. Three years ago there was not a house or a cow in the whole district; to-day it is stocked by sheep and cattle farmers, merchants, and even foreign joint-stock estancia companies, and the Loreto camps are following in the same "senda."

Don Emily Hanquet

Dear Sir,

Respecting the camp fire about which you are so justly alarmed, I write to say that after 36 hours, hard work night and day, I have saved the greater part of the camp, only about a league being burnt, 4 posts of the wire fence and three lienzos corral at the puesto. We may consider ourselves very lucky, as the wind was strong on the 13th and this is the only camp that remains with grass. 2 of my peones are sick and I myself am nearly done up, but I will be all right soon. Mr. Runciman's camp I regret to say has suffered and all the other camps around the same more or less; the fire continues and is going outside.

Yours respectfully,
P. Iturbide,

Estancia La Carolina, Jan 14th 1884

Camp fire extinguished. So far as I can learn the stock has suffered nothing and there is plenty of camp saved whereon to keep the stock.

Areco, Jan. 15, 1884.

Camps fired by sparks from locomotive. Estancieros have to keep peones along the line to extinguish sparks and watch each train.

Curumalan, Jan. 14, 1884.

Southern Railway locomotives setting fire to the camps. All the neighbours out, working hard to extinguish it. On the Curumalan estancia 50 peones at work.

LONDON LETTER

(*From our own Correspondent.*)

GENERAL TOPICS.

December 19th.

The judgment in the celebrated case, Belt *v.* Lawes, was given last Saturday, the day the last mail left, but you will hardly have received the news, and it is too important to pass over. Never did a case expose so clearly the imperfections of judge-law, or of the ruling of the bench in accordance with private prejudices and impressions in cases where the statute-law is not precise in its terms. You will remember that when this case was tried the Judge—Huddlestone—was thought to be so much under the influence of the aristocratic patrons and patronesses of Mr. Belt, the sculptor, that in refusing the professional testimony of Sir Frederick Leighton and the academicians, as to the merit of Mr. Belt's work, he misdirected the jury, who found a verdict for the plaintiff, with the enormous damages of £5,500, a sum not thought excessive, considering the means at the disposal of the parties to the case, the defendant having a few weeks since paid to his solicitor the sum of £11,100 for costs. The defendant, however, was advised that the verdict was against the evidence, and that the jury had been misdirected, and applied for a new trial. This latter question has been considered by Lord Chief Justice Coleridge, Mr. Justice Denman and Mr. Justice Manisty. The three learned judges disagree, the Lord Chief Justice entirely siding with the defendant, and being disposed to grant a new trial, whilst Mr. Justice Manisty's opinion was quite the other way, and, in the main, confirmed the verdict, and Mr. Justice Denman seemed to hold a middle course, being inclined to confirm the verdict, but thinking that as the plaintiff did not come into court with altogether clean hands, or otherwise that he was something of a 'broker' rather than a sculptor, the damages were excessive. He suggested that rather than, as Mr. Justice Manisty expressed it, the "dreadful consequences" of a new trial should be incurred the plaintiff should agree to receive £500 damages; and to this arrangement the three judges subscribed. If he do not agree, then the application for a new trial will be granted. This momentous choice was to have been decided by Mr. Belt to-day, but I see nothing of it in the late editions of the evening papers. Probably you will find it in the paper you will receive of to-morrow's date.

Against the risks of increasing the terrific costs of the trial, there is the set-off that Mr. Justice Manisty, the junior judge, who first gave an opinion, and who certainly went into the case with great care, stated decidedly that if a new trial was granted the verdict would be confirmed, and Mr. Justice Denman rather leaned to the same opinion, with a reservation in regard to the amount of damages. As for the Lord Chief Justice, he has in this business sadly confirmed the general estimate of his powers as a lawyer and his failings as a man. With certain æsthetic tendencies, and a desire to appear as patron of the arts, he did not conceal his distaste for the somewhat contemptuous terms in which Mr. Justice Manisty spoke of the academicians and Sir Frederick Leighton. He even went so far as to lay down the legal precept that the cultivated opinion of artists in regard to a work of art must be accepted not as opinions but as facts. Nothing could be more absurd; in truth, while there was much in the evidence to prove that Mr. Belt was more of a "broker" than a sculptor, and that he was something of an outsider, the weakest, or, at least, the most suspicious part of the evidence, on the part of the defence, was that of professionals, who, be they literary, artistic, or even scientific, will ever join in peckiug an intruding jackdaw to death.

The Marquis of Lorne has been to Glasgow to receive the freedom of the City. When he arrived, there was not even a private carriage waiting to receive him. This Prince by marriage, took a cab, and, in a most republican or Canadian fashion, drove to the residence of Mr. Burns, whose guest he was to be. He spoke at Glasgow, as he has done everywhere else, of Canada. He said, that we must not suppose that because Canada had not a President of its own it was not independent. He then added, rather officiously—"But her position would be dangerous as was the position of all small states, were she brought face to face, and front to front, with a great Power and have no great Power to support her." He set forth the advantages offered to immigrants of having the choice of land at the price of £2 for sixty acres, upon which magnificent crops could be raised without manure. He wisely added—"He would not, however, advise anyone to go there without means; and as for elegant governesses, &c., they were not wanted unless they had hands, and could use them." It is the old story; new countries are savage countries, and to succeed in them a spice of the savage in your physical and mental constitution would not be amiss.

It is scarcely worth while retailing the Tonquin news, as the later telegrams will acquaint you with the result, for which we are all waiting, of the first event of the new departure—the French attack on Sontay, one of the places, the capture of which was to be a *casus belli*. It is more interesting, and even more sad, to turn to the French Legislative Assembly, and see polite French Deputies and Ministers still so backward in the morals of civilized life as to be turning their weapons against one another while discussing the question of war with the heathen-Chinese—

On the Bill for laying a telegraph between Saigon and Haipung, M. Cunéo d'Ornano moved the adjournment, saying the Ferry Brothers carried away the majority. Thereupon M. Jules Ferry said such language was indecent. M. Charles Ferry asked what was the meaning of these odious insinuations. M. Cunéo d'Ornano, amidst much noise, called M. Jules Ferry impertinent. The President, M. Brisson, said M. Cunéo d'Ornano in using such an expression as the Ferry Brothers, had evidently made an insinuation which provoked the word "indecent." If he would now declare he meant no insinuation, the incideut might end; otherwise the Chamber would be consulted on the application of the rules. M. Cunéo d'Ornano said he meant no insinuation. M. Jules Ferry, not appearing satisfied, said if the Government was exposed to be insulted without repression the Ministers would not attend the sittings. M. Brisson, however, held that M. Cunéo d'Ornano had sufficiently withdrawn the offensive expression. After an observation of M. Cunéo d'Ornano that the English would profit by a telegraph made by the French taxpayer, the Bill passed. When the House broke up M. Charles Ferry sent M. Léon Renault and M. Devés with a challenge to M. Cunéo d'Ornano, but subsequently, in a conference between M. Brisson, M. Jules Ferry and M. Cunéo d'Ornano, it was agreed that the *Journal Officiel* should not report the incident, and then M. Charles Ferry withdrew his challenge.

I have not hitherto taken the trouble to follow the Crown Prince of Germany on his travels in Spain and Italy, because nobody seemed to know his object. He has now completed one intention—he has had 56 minutes' conversation with the Pope. To show that his visit to the Vatican was simply one of courtesy he drove there in a private carriage. He has been well received at Rome. After the Royal party had entered the Quirinal Palace the vast crowd in the square kept up the cries, "Hurrah for the friend of Italy!" "Viva, Germany!" Enough to make the beard of Barbarossa and the poncho of Garibaldi change colour in the grave.

In the city I hear nothing, and certainly see nothing, but thievish-looking men, with their hats over the backs of their heads and their hands in their pockets.

THE GERMAN CROWN PRINCE IN ROME.

INTERVIEW WITH THE POPE.

The quiet fashion in which the Crown Prince of Germany's visit to the Vatican came off to-day forms a marked contrast to the stir it created in anticipation here and abroad. This morning about 11 the Prince, accompanied by his suite, drove from the Quirinal to the Pantheon, and laid a wreath on the tomb of Victor Emmanuel. Thence the party proceeded, still in the State carriages, to the German Embassy, to the Quirinal, where the Prince lunched with the German Ambassador, Baron von Keudell, and the Prussian Minister to the Vatican, Dr. von Schloezer. About half-past twelve the Prince and his suite set out from this neutral territory for the Vatican, driving no longer in King Humbert's State equipages, but in carriages hired from a livery stable. He was accompanied by General von Blumenthal, General Mischke, Lietenant-Colonel von Sommerfeld, Rittmeister von Nyvenheim, Capt. von Keszel, and Hofmarchal von Normann. The foregoing, as well as Dr. Schloezer and his Secretary of Legation, Herr von Rotenhahn, were in full uniform with decorations. The Imperial party reached the Vatican at one, and entered by the courtyard of Saint Damaseus. Here they were received at the foot of the staircase leading to the Pope's apartments by the Pontifical master of the ceremonies, Monsignor Cataldi, four Swiss halberdiers, two bussolanti, and two sediari (grooms) in gorgeous violet-coloured liveries. This was a stretch of courtesy on the Pope's part, and shows the importance he attaches to the Prince's visit, as Vatican etiquette only requires that Princes not actually reigning should be met at the foot of the staircase by two halberdiers. With this escort, the Prince proceeded to the Sala Clementina, where he was received by the Papal Anticamera, consisting of the Majordomo, Monsignor Theodoli, Monsignors Samminiatelli, and Marinelli, and four "Cavalieri di Spada e Cappa," in rich black velvet sixteenth-century Spanish costumes. Passing on through two suites of apartments, where Royal honours were paid to him by the various corps composing the Pope's small army—viz., the Swiss Guards, Carabineers, Palatine Guards, and the Patrician Noble Guards, Prince Frederick William was ushered by Monsignor Macchi into the private cabinet of Leo XIII., who rose and advanced towards him on his entrance. The Prince and Pontiff shook hands and conversed together in French for fully fifty minutes. This strictly private interview being ended, the Prince's suite were introduced and presented to the Pope, who spoke affably to each in turn. The Prince then proceeded with the same train attendant to the apartments of the Pontifical State Secretary, Cardinal Jacobini, with whom he conversed, but in a less private fashion for a quarter of an hour. After this the Cardinal escorted the Prince and his suite through the well-known Stanze of Raphael and the Sixtine Chapel, and down the Scala Regia into St. Peter's, where, after a brief inspection, the Royal party took leave of the Cardinal in the Atrium, amid a promiscuous but respectful crowd attracted by the novelty of the scene. Outside the Prince was well received by the crowd, and along the whole route from the Vatican to the Quirinal not the slightest attempt at disturbance occurred.

Berlin, Tuesday Night.

The Crown Prince's visit to Rome forms the chief event of the day. The Emperor has received a telegram from King Humbert expressing his great joy at the Prince's arrival. Cardinal Hohenlohe, who called on the Crown Princess yesterday, was received by the Emperor to-day in audience, which also appears to have connection with the events at Rome. The Crown Prince is expected to return here next Saturday.

LONDON AND RIVER PLATE BANK, LIMITED.

The Twenty-First Ordinary General Meeting of Shareholders was held on Tuesday, 18th December, 1883, at the City Terminus Hotel, Cannon-Street, Mr. George W. Drabble, the Chairman, presiding.

The notice convening the meeting was read.

The Seal of the Company having been affixed to the Register of Transfer, in accordance with the Articles of Association, and the Report having been taken as read.

The Chairman said he presumed that they were all present at the extraordinary meeting which was held on the 30th of October, or had read the proceedings which then took place. At that time Warden, their late Secretary, had been committed for trial, and in the case of Watters proceedings were taken before the Court. No doubt they had all read the proceedings of the trial of both men. It might have struck some of the Shareholders as extraordinary that the Directors had allowed him to state to their counsel that a recommendation to mercy should be forwarded to the Judge in the case of Warden. He thought, however, that those who recognized the fact that Warden had been a servant of the Bank for twenty years—and until recently a very faithful servant, he believed—would agree with him that it was the least they could do, knowing as they did that the sentence must be a very severe one. He believed that their recommendation had led to the mitigation of the sentence on Warden by two years. Very severe criticism had been passed in some quarters on both the Bank and the Directors. Mismanagement had been alleged against the Bank, and the Directors had been accused of being either careless or grossly negligent. With regard to mismanagement, it was a very broad term. They knew the results of their management for a good many years, and he thought those results proved that no such term as mismanagement could be properly applied in this case. As to the charge of negligence, he had obtained a copy of the shorthand notes of the remarks of the Judge in summing up the case of Watters to the jury. As they had not been published in any of the general newspapers, and as they bore so much on the position of the Directors and of the Auditors in connection with the distressing event in question, he thought it would be very interesting and only proper for them to know the opinion of the Judge, who, they ought to bear in mind, must have listened to the very strong and skilful defence which was made by the prisoner's counsel. At the close of his examination before the magistrate, Watters said, "From my banking experience of twenty years, I should have deemed it impossible for an officer of the Bank to abstract securities, even to the amount of £20,000." Commenting on that statement, and on the defence of his counsel, Mr Justice Stephen, in summing up the case, said:—

"Here was the broker. He had every right to think that the Bank Manager would not be able to steal the securities of the Bank. He would know that every precaution would or ought to be taken in a bank against such breaches of trust, and, therefore, when he saw the Bank Manager in possession of large quantities of securities, his natural inference might be that he had come by them honestly. On that matter it is entirely for you to judge; but, unfortunately, one cannot have lived as long as we have without knowing that there are such things as frauds on banks, and without knowing that servants in banks, fraudulently disposed, do, in one way or another, contrive to steal; and I do not think one can have had very much experience of life without knowing that in business, in which you have to deal with a man occupying a good position in life, and receiving a salary sufficient for the perfect confidence with which he is treated by a large number of people, you cannot bring yourselves to take precautions against him as you would do against the common pick-pocket. You cannot put your hand to your pocket every time you see him to see if your watch is safe, even if it be somebody else's watch. What Warden did in this case was exactly the kind of trick you might protect yourself against if in a railway station, where people look to their pockets; but you do not protect yourself thus if dealing with a man who is supposed to be a gentleman and a man of honour—people do not look for that kind of thing. He gave a description of the ways by which he was in the habit of stealing these securities. He took advantage of miserable, dirty, little opportunities, which you can understand would not enter into the minds of honourable men to protect themselves against."

Such was the conclusion of the Judge after hearing the whole of the evidence. He (the Chairman) did not wish to contend for a moment that it was right for anyone, for Directors or Auditors, to relax in the least, or to omit any possible check for safeguarding securities held; but those who were present at the last meeting would remember a remark made by Mr Atkinson, in reply to the statement which he himself made as Chairman of the meeting. Mr Atkinson said that a man fraudulently disposed would not always avail himself of one way of stealing—there would be some new ways invented, according to the necessities of the case; and he (the Chairman) had no hesitation in saying that, notwithstanding any precaution which might be taken, a man fraudulently disposed would, by one way or another, strive to elude the precautions, and perhaps would succeed. He had very carefully read everything which had been published since October bearing on the point in question, and, with one exception, he had found no check mentioned or any suggestion made of a practical character which had not previously been adopted by them. The exception was the unexpected examination by the Auditors of the securities and cash in the possession of the Bank, that appeared to him to be the only satisfactory solution of the question of proper safeguard. At a bank meeting the other day he saw it stated that there were three keys, and that a check had thus been established which made it practically impossible to rob. If, however, they referred to the newspapers of the previous day they would find that three men had been brought up and charged with combining together to rob their vestry. Therefore, apparently, three keys would not suffice. The best precaution undoubtedly was the unexpected examination on the part of the Auditors. The Shareholders, however, must not forget that theirs was a foreign bank. They had securities in London, but a great many more securities in their strong rooms at Buenos Aires and their other branches. They must not forget the immense power they had to give to their foreign managers, and how much they were exposed to robbery abroad as well as in this country; and he thought it very fortunate that, in the history of this Bank, the present was the only case in which they could accuse men of direct robbery. It must also be remembered that there were other ways by which a bank might be robbed besides the abstraction of securities; and all this pointed in one direction—viz., to the necessity of the policy which had always been urged by the Directors—the policy which he had always termed as "erring on the side of caution." Suppose a man failed, owing them £20000, and if was thought necessary to write off 50 per cent., he had always urged that 70 per cent should be written off; and it they recovered the 20 per cent, then so much the better for the bank. That policy was the best safeguard, affording as it did, a provision in the event of a recurrence of such unfortunate events. Let them look back to the year 1876. If they had not carried out that policy they would not have been able so quickiy to recover from the great misfortune which the Bank then suffered. They were obliged then to take away £80,000 from their Reserve Fund, and of that only £20,000 was returned to it. There was no doubt that they had to apply to another fund at that time to assist them. They could not carry out the policy to which he had referred without creating a fund by means of which they were able to meet such difficulties; and on the present occasion they were able to provide for the heavy loss they had sustained, and to pay a dividend of 4 p. cent, making 8 per cent for the year without making any application to the Reserve Fund. The policy he had indicated would be continued by them, and he hoped it would always be approved by the Shareholders. It would be pleasing to the Shareholders to know that after making good the £116,000 of which they had been robbed, there was still something to the credit of the fund mentioned. The result of the year's working had been even more favourable than had been anticipated, and it was a most fortunate coincidence that the sales of the properties taken from failed estates had been made at such good prices, leaving them therefore in this favourable position. For the first time the Directors had made a prominent feature in their Report of the policy he had enunciated, and if the shareholders approved the Report they would also approve this policy, which the Board strongly recommended. There was no material alteration in the figures of the Balance Sheet as compared with last year. There was the same financial strength in every way. The profit and loss account disclosed the clear fact that their gross profit this year had been £96,000 after making provision for bad and doubtful debts, and also for the value of the securities stolen by Warden. It had been supplemented in the manner he had indicated. Very severe criticism had been passed on their Auditors, and strong remarks had been made concerning them. He (the Chairman) must remind them that the Auditors were the servants of the Shareholders, and were responsible to them; but it would be reassuring to them to know from the Directors that they did faithfully and fully carry out their duties. If they had been deceived by Warden it was no more than the Directors had been; and he thought that the precautions taken by them were such as would be expected to be taken. He considered it would be advisable for the Shareholders to give the Auditors instructions to make unexpected audits whenever they might think proper. The general working of the year had been very satisfactory. They knew from the communications they had received that by the course they had taken of paying the amount stolen, and by the general policy that had been adopted, the credit of the Bank stood higher than it ever did before. From Mr Ross Duffield, who had been appointed manager of the Bank at the head office in London, and who had arrived from the River Plate within the last two months, they had received a most reassuring account of the state of affairs in that country. Gentlemen, with these remarks I beg to move "that the Report and Accounts be received aud adopted and entered on the minutes."

Mr. T. S. Richardson: I second that.

The motion was carried.

The Chairman: The next resolution is, "That a dividend of 4 per cent. be declared for the half-year ended the 30th September, 1883, out of profits accrued to that date, payable on the 21st December, 1883, free of income tax."

Mr. Richardson: I second that.

The motion was carried.

The Chairman: The next resolution is, "That Messrs. Charles Hemery, James Anning, and Joaquin de Mancha, who retire from the Board by rotation, be re-elected." I shall not add one word. I believe they are all well-known to you, and I think they have all faithfully served you.

Mr. Richardson: I beg leave to second that.

The motion was carried.

Tae Chairman: The next resolution is, "That the thanks of the meeting be given to the consulting Directors, Managers, and staff of the rospective establishments, for the zeal and ability displayed in conducting the Bank's affairs." I will leave that resolution to stand on its own merits. We have nothing to say against any of our Managers, and the best proof of the result of the management is the satisfactory returns which they have given us.

Mr. Richardson: I second that.

The motion was carried.

The Chairman: The next resolution must come from the meeting: it is re-election of Auditors.

Mr. Atkinson: I have been requested to move a resolution, which I am quite ready to do—namely, that Mr. W. W. Deloitte and Mr. J. Vanner be re-elected Auditors for the ensuing year. I have not the pleasure of knowing the first-named gentleman personally, but I know Mr. Vanner, and can testify to his integrity and standing. I am told that Mr. Deloitte has actual experience as an expert in accounts, and I judge him by the company he keeps, and he is in the company of Mr. Vanner, and that is sufficient. I understand you to suggest that the meeting should give instructions with respect to the Auditors visiting the Bank occasionally and unexpectedly, to examine the accounts from time to time, and therefore I have taken the liberty of wording the Resolution as follows:—"That Mr. W. W. Deloitte and Mr. John Vanner be re-elected Auditors for the ensuing year, with instructions to visit the Bank from time to time and examine the securities and cash, and that £150 a year be paid them for their services."

Mr. Law: I have pleasure in seconding that. I think it is the right thing to do.

The motion was put and carried.

The Chairman: Gentlemen, that concludes the business of the meeting.

Mr. Henderson: Before we part, I think we should move a vote of thanks to the Chairman for his conduct in the chair.

Mr. Beynon: I have great pleasure in seconding that. I suppose you mean the Chairman and Directors?

Mr. Henderson: Yes.

Mr. Beynon: I am sure the Shareholders present are very glad to have received the statement they have done from the Chairman, who has taken great pains to impart to us all information with regard to the past affairs of the Bank. I do not propose to refer to it further than to say, that I am very glad we have come to the resolution to take, what I consider, a most effectual check in guarding against any similar matter in future. It is the course adopted by one of the largest Joint Stock Banks in London. I know it has been their custom, and five minutes before the Auditors come, the parties in whose custody the securities are do not know what is about to take place. Therefore with this additional security which has been adopted, and the continued care of the Directors in the business of the Bank, I think we may look forward to prosperity, whilst looking with regret at what is lost. Still it is fortunate that the Bank has been in such a good position from management, and the caution of the Directors, that we have been able to meet it without infringing on the Reserve Fund. I have great pleasure in seconding the vote of thanks to the Chairman and Directors for conducting the affairs of this Bank.

The motion was carried.

The Chairman: We are, I am sure, very much obliged to you for the confidence which has always been shown in us, and I hope it will be always deserved. I may remark with respect to the liability of banks. That question has never yet been solved. There have been various opinions upon that point; I would venture, however, to state that I have heard in more than one case of securities being lodged in Paris, where the liability is acknowledged, and therefore such a course, if extended, would act prejudicially upon banking interests in London. I am sorry banks do not acknowledge the liability, making a small charge for that purpose. It is a point upon which we may hold varied views, but I think it would be a fair case to meet, and in such a case we should establish in Buenos Ayres a small charge for the custody of securities there.

The meeting then broke up.

EDITOR'S TABLE.

Mighty Jove roared and rained yesterday at early morning. There was far more roar than rain, and the consequence was that the thermometer was almost as high as ever at noon, and only for a slight breeze the heat could not have been borne. During the thunderstorm there was one fearful clap, at about 3 a.m., that shook the houses and windows all over town, and threw several of our male subscribers clean out of bed, and as many of the fair sex into hysteries. The report resembled the discharge of an old 64-pounder, or a "Long Tom," short, sharp and deafening. The lightning was terribly vivid, and tore through the firmament in all directions. The spectacle was indescribably grand and awe-inspiring. Weather prophets say we shall have more rain, but refuse to pin themselves to any special time for the longed-for relief. Everybody now ascribes the terrific heat to the 1812 Comet.

We call the attention of the Lord Mayor to the truly shocking state of the "niches" in the Recoleta Cemetery. A wealthy subscriber, who has time on his hands, strolled into the Cemetery on Wednesday, having heard that it was worth seeing, thanks to the improvements made by the Lord Mayor. While there, an Italian funeral was going on, and he had a peep into one of the niches. There was no door, and when one of the mourners pushed in the few bricks that hid the coffins from view, the sight and smell were so awful that our friend had to run for it. He begs us to call the attention of the Municipality to this shocking state of things (what he saw would only sicken our readers, were we to publish it) which is a terrible danger to public health—far worse than the abominable "conventillos." The matter demands the instant attention of the city authorities.

The public dander is evidently rising about the increase in the tram fares. It is not hard to see a way out of the difficulty. The companies can easily provide counters worth two cents, until the banks get small change enough into circulation. A most experienced tramway Director told us yesterday that, but for the contract which binds the companies to pave the streets through which they run between the rails, the public could have five cent fares to-morrow. The cost and worry to the companies of laying and keeping the pavement in repair is very great. It is, besides, an unjust and stupid regulation, unknown in any other country. The ratepayers at large should pay for all paving, as they do in every other city, and the companies be bound to carry the public at lower rates. The idea of making the companies pave their part of the streets may have been brilliant enough fifteen years ago, when we had only one tramway and very little pavement; but the Capital of the Republic should manage its affairs as other great cities do, and not in the pettifogging spirit of squeezing money out of tramway companies.

A "restaurateur" who does not hang out a hundred miles from Printing House Square, tells us that Day & Co.'s German Stout Porter, "frappé," is the great restorer which the public now call for during the intense heat. This Porter is even better than Guinness's and is free from the peculiar taste imparted to the latter by the ingredients that enable it to cross the Equator in drinkable condition. This German Porter tastes like what Guinness makes for home consumption, which is very superior to what is made for export.

All the papers say that the Pipe Water is now all right, but the experience, up to yesterday morning, of those who live in "altos" houses was not in accordance with our colleagues. The new regulation, which will last a week, is: Big pumps at work from 4 to 9 a.m.; small ones from 9 a.m. till 2 p.m.; big ones again from 2 till 7 p.m., and then the old ones till next morning. Every man in town has Pumps on the brain, owing to the cost and annoyance this Pipe Water Muddle has caused. The Board is morally bound to make 80 per cent reduction in the consumers' accounts for the months of November, December and January, otherwise there will be lots of rows and lawsuits.

A terrible fire took place at Azul on Tuesday night, the store of Mr. Lacoste being burned to the ground, and one of his children perishing in the flames. The loss is a million and a half currency, all Mr. L's fortune, accumulated in thirty years of hard work.

The heat has had the effect of stimulating the already too fertile imaginations of newspaper reporters. One of the species, in Corrientes, reports the miraculous escape of a woman who was *half-swallowed* by a boa-constrictor, when a man riding by dismounted, tied two 'lazos' to her and pulled her out of the reptile's jaws. The story is not complete; the public have a right to know whether the woman was pulled out by her head or her heels, or whether she left a lock of her hair, or one of her boots, in the serpent's inside?

The Water Works for La Plata are to cost 136,000 Nats, and be based on a supply for 125,000 souls. It will be many a long day before La Plata counts such a population.

The *Independiente* of Rosario seems to have a latent weakness for masquerade balls, which have been suppressed up there, and says that they are not so bad, after all. Not so bad! They could not be worse.

During the storm yesterday morning the lightning struck the dome of San Nicolas Church, and knocked off some of the "baldosas" with which it is covered. A bolt also fell at the corner of Esmeralda and Tucuman, within five yards of the policeman on duty there, who was knocked senseless to the ground, and was insensible at nine o'clock, a.m., yesterday.

Telegrams from Gualeguaychu report the 'cardo negro' as springing up abundantly on the estancias along the Uruguay. The black thistle is dreaded by most campmen, although some say and have proved that sheep can thrive on it.

The English papers publish the following romantic story:—

In 1882 the eldest son of Prince Frederick of Palm, the young Count Alfred, then studying at the Bonn University, ran away from home because his family would not allow him to marry a young girl, well brought up, and whose parents were comfortably off, but of comparatively low birth. For a whole year the Prince of Palm remained ignorant of his son's whereabouts, and was only informed last September that he was working as a navvy on the Illinois railway, a few miles from Chicago. He had been recognised by another of the name of Shneider, who had served in Germany in the same regiment of Hussars as the young Prince. Schneider wrote to the Prince to inform him that the Count and himself occupied the same lodging at Chicago. The Prince immediately sent the manager of his estate to bring back the prodigal son, who refused to return unless he was allowed to marry the lady for whose sake he left home and country. The Prince's consent to the match has been granted.

We call the special attention of parents and guardians to the advertizement in another column by the committee of the Scotch School who seem thoroughly determined to make it "second to none." The terms are most liberal, and the connection of the School with the local examination scheme of the University of Edinburgh is an advantage which no other school in the Plate possesses.

The new Chilian Minister, Dr Montt, presented his credentials yesterday to President Roca. The grand saloon of the Government House was full of military, naval and diplomatic uniforms. The speeches exchanged were most cordial. The Minister went to and from the Government House in the President's state coach.

Another tram mishap yesterday. "Mayoral" fell off his car and fractured a leg.

Two accidents on Wednesday on the Northern Railway. About three squares before arriving at Olivos Station the axle of one of the carriages of the 4.40 from the Central gave way. The carriage, a second-class one, under the immense pressure from the carriages following, was completely wrecked, no lives being lost. The passengers had to await the arrival of a train from the Tigre, and the delay in all was something like three hours. The other accident was nearer having a more disastrous ending. Whilst a woman was getting into the train the signal sounded. Already she had placed her son, a little fellow of tender years, on the platform, and was herself about to follow when the train began to move. With fear for her little son in such a dangerous position, she would not let go her clasp on the hand-grasps, and could not mount further. In this horrible position, suspended over the very rails, more than a square was passed, and the weight must have inevitably made her loose her hold, when she was seen by the Inspector who rushed to her aid and endeavoured to lift her bodily in. This he would have succeeded in doing had she not held on to the irons with the tenacity of despair, and all his efforts were unavailing. Luckily the guard soon stopped the train and put an end to the suspense. Until better precautions are taken such terrible scenes as these may be of daily occurrence.

The old abuse and complaint about the city paving. A whole square in Calle Moreno, in the vicinity of Chacabuco and Piedras, has been ploughed and left bare even of petrified kidneys; but p. k's are better than nothing, and the neighbors there report the state of the place as something awe-inspiring. The place is in this condition for the last month, and we call the attention of the Lord Mayor to the matter.

Any unfortunate who may have invested his hard-earned savings in building plots in La Plata, will have them confiscated right off, if he do not commence building on them before the 25th inst. There is said to be a great demand there, in consequence, for bricks and brick-layers.

Things are changing rapidly at home, and when we get the extension of the suffrage, "quien sabe" what we may see—perhaps the Duke of Edinburgh "chef d'orchestre" at Covent Garden. A London colleague says:—"Lord Londonderry is now a retail coal-dealer; Lord Sudeley promises us jam. I like this direct individual mode of supply much better than dealing with that irresponsible boweless thing a company. Cannot another nobleman give us undeniable butter, above all suspicion of oleomargarine? Another (Lord Ellesmere, for example) delicious bacon, and so on? It would, of course, be understood that the noble purveyor would regard it as matter of honour to give the best and purest article. Their shops should be known by their armorial bearings over the door; and Lord Sudeley's jam-pots and the Duke's pat butter should bear pretty heraldic devices. Who would want to overturn a peerage providing such good things? Even Mr Chamberlain would grow friendly towards the Upper House as, seated within the cheery glow of Lord Londonderry's capital coals, he enjoyed a slice of Worsley bacon, and finished his breakfast with butter, say from Belvoir, handsomely piled over with Toddingston jam.

Santiago del Estero wants to be in the fashion and has got a celestial phenomenon of its own. At night the Moon "which oft favors what she should not," as Byron said, appears with two broad white bands about her, and by day His Majesty the Sun wraps himself in a black robe, with white fringe. It is too much to suppose that the flare-up at Java can be the sole cause of these monstrously queer things on high, where the times seem "out of joint" so much.

Krupp has obtained a patent for a new projectile for artillery that he is projecting. It will be an improvement in the head-piece, have an increased velocity, besides being filled with oil, which will facilitate its piercing qualities.

"Have your heard why the English dude is not wanted in America?" "No, why?" "Because the Yankee dood'll do."

Cold water on a very hot day is a very bad thing. People should have the sense to know that there is a most terrible reaction, especially when the body is hot and excited after manual labour. A peon working near the Southern Cemetery on Wednesday left his work for a moment to allay his thirst. He drank with avidity a glass of water, but in the very act almost fell down, stricken suddenly ill. In moving him to the hospital he died. Dr. Villalba certified, after examination, that he died of a pulmonary apoplexy caused by the violent impression received by the organs coming into contact with the cold water.

When a gambler marries, he doesn't come out with a "no card" announcement.

This is certainly a very wonderful country for red-tapeism. Nothing can be done until all the circumstances which are never half investigated have been detailed at head-quarters. The Sub-Prefect in Paso de los Libres sends word by telegram that the Juez de Paz of Uruguayana, with two other unknown individuals, have brought in a boat called the 'Itague' two Argentine citizens, bound, and destination unknown. Without pretending to any more knowledge of the matter than the above, he wants to know what he is to do. This may be the beginning of an ugly question.

The most desirable Christmas piece of the year.

Miss Dale,

SPANISH MASTER
Frederick W. Wood,

MUSIC TEACHER
Miss Porteous.

This School was reopened on the 14th of this month, and the Committee of Management wish to state that the instruction given at it will be such as to embrace all the branches of a sound primary and secondary education; while in the Senior Department advanced English in its different branches of Grammar, History, Geography, Composition, Literature, Analysis etc. will be taught, Latin, French and Spanish will form part of the regular course, and for these subjects

No Extra Charge

will be made. Music, German, Algebra, Geometry and Drawing will be taught as special subjects to those who may desires them, and in every branch care will be taken to bring the pupils to as high a stage of advancement as their age and abilities will admit. The Junior Department will be preparatory to the Senior. It will thoroughly ground the boys in the simpler parts of a good English Education, viz., Grammar, Geography, Writing, Arithmetic etc., and in this Department there will also be classes for Spanish, Elementary Latin and French, none of which will be charged as extra subjects.

In the Elementary Department every effort will be made to render the School attractive to young children, and to interest them in schoolwork. They will have simple, easy lessons given them in Reading, Spelling, Grammar, Writing, Arithmetic, which last will be made interesting by Oral Exercises on the ball-frame.

Singing will be taught in all the Departments, and Sewing, Knitting and Fancywork will be taught to the girl pupils without extra charge.

While the strictest School-discipline will be enforced, corporal punishment will be resorted to very rarely and only in the most extreme cases.

The School will be connected with the local Examination Scheme of the University of Edinburgh; in order to give advanced pupils an opportunity of gaining a certificate by means of which their proficiency in different studies may be vouched for by competent examiners.

For further information Parents and Guardians are requested to apply to the Head-Master, Mr Connacher, at the School, and to consult the detailed prospectus which can be had on application to Mr. Grant, Calle Cangallo 69.

January 17th, 1884

Cedulas E	87⅝
Cedulas F	85½
National Bank Shares....	129½

The Cedula market continued in a threatening mood this morning, and the pressure on the stock was evidenced by a further drop in rates. The bulls are letting go in thousands; Germans and Frenchmen are selling out, and a few outsiders are buying. The very large sales of Series E by a French broker arrested the attention of the market, and operations marked on the black board only reflect half the business done during official hours.

The National Bank Share market, bulled yesterday, beared to-day, ruled dull, but the situation has grown firmer. Two hundred and fifty shares only were sold for the end of the month at 129½-¾; rates closed firm. One hundred were sold for the end of February at 129¾ 'para entregar'. Sales were few and the market ruled very dull

About 40,000 Series E changed hands for cash at 87½-⅝. Operations for the end of the month embraced about half a million Cedulas E, although only 200,000 were marked on the board; rates opened with a faint attempt at firmness at 87¾, but declined rapidly to 87⅜, closing at this rate weak, between buyers and sellers. One hundred and fifty thousand were sold for the end of next month at 88. A few thousand Series F were sold for Saturday at 85½.

A fair amount of exchange was passed today at 47¼ on London, 5.05 on Paris, and 5.06 on France; operations to-day were not as large as yesterday; the market continues in the same weak condition. One of the private banks drew fair amounts yesterday.

Gold continues at a slight premium, which must necessarily fall in consequence of the large arrivals of specie. The Pleiades brings £50,000 in gold for the London and River Plate Bank, and the Patagonia, which has arrived in Montevideo, brings £100,000 for the Italian Bank, and £50,000 for the London and River Plate Bank. This influx of gold comes at a moment when specie is in steady demand.

The money market continues easy; the two leading official banks discount on an average $400,000 each bank day; money rules easy outside also.

The sales at the ring during official hours were:—

Cedulas—
For cash E 38,000 at 87½-⅝
For Jan. 31st E 225,000 at 87¾-⅜
For Feb. 29th E 150,000 at 88
For Jan. 19th F 6,500 at 85½
Sales, 419,500.
National Bank Shares—
For Jan. 31st 250 at 129½-¾
For Feb. 29th 100 (e) at 129¾
Sales, 350

The news of most moment in the market is the meeting of bankers to be held in London this week to arrange for the launching of the City Improvements and National Bank loans. In a few days all will be settled.

The sale of one square league in Loreto was announced to-day on reserved terms.

The land auction which took place at Bullrich's yesterday is the talk of the market. The prices were under the expectations of land men and climatic influences with the thermometer over 100° F., must necessarily account for the bargains secured by Messrs. Passman, Girondo and Ugarte and J. E. Hughes. Had Bullrich followed his matutinal inspirations to suspend the auction owing to the excessive heat, he would have, no doubt, sold the lands at much higher prices. Mr. Miles Passman bought the first four lots, situated in Fraction B of the IInd Section of National lands as follows:

Four leagues—Lot 4—at $147,500 % per league.
Do Lot 3—at $145,000 % do.
Eight leagues—Lots 7 and 8—at $132,500 % do.

This is about the cheapest purchase made in the last six months, as these lands are situated about six leagues from the Fifth Meridian and only sixteen leagues or less from Trenque-Lauquen. Lot 3, four leagues in Fraction A of the Third Section of National land was bought by Messrs. Girondo and Ugarte at 122,500 % per league. These gentlemen bought also two leagues in the vicinity, embracing half lot 28 in Fraction D of the Second Section of National lands, at the same rate. Mr. J. E. Hughes secured Lot 24, four leagues, in the Second Section also, at 107,500 % per league, alongside land for which 6,000 $ were offered yesterday only and refused. The purchasers of all these lands have made splendid bargains, and could sell their lands to-morrow at a handsome profit and for cash. Messrs. Newberry and McNally's land—3 leagues—situated in the Seventeenth Section of Provincial lands, was bought by Mr. Short for 270,000$ % per league. This land is well known, is in a splendid situation in a district where everything is advancing. The moral of the sale is that these lands were sold at prices much under those current in the market, and that the excessive heat of the day interfered with the auction. It is to be hoped that Mr Bullrich's great auction on the 22nd inst. will prove a greater success; thirty thousand hectares—12 leagues of land—in the IVth and Xth Sections will be offered for sale; four leagues are situated in the IVth Section, alongside the properties of Cambaceres, Espeleta, Devoto and Bourdet, and not far from Bahia Blanca; the other eight leagues are situated in the Xth Section. Several thousand hectares in the VIIth Section will also be offered at auction. The market looks forward to this auction with much interest. The Xth Section borders on the IVth.

Mr M. Sanchez, the pioneer manager of the new branch of the Provincial Bank in Patagones, was welcomed to-day. The manager of this new branch leaves soon for Patagones, where the Bank will do a large business and will meet a long felt want. We augur him the highest success. Messrs. Bartorelli have up to the present carried on all the banking business nearly of the Rio Negro valley, but millions are wanted to meet the demands of farmers and estancieros in these parts. The new branch will be more important than that in Bahia Blanca, as it will do all the proveeduria business for the troops on the frontier.

In another column we publish an important telegram from Manchester; the cotton market is advancing.

The steamer Orion left Genoa yesterday with 1150 passengers and emigrants for the River Plate; this is the best of news.

The railway from Campana to Rosario will soon be a fact; the contract has been already presented to the National Government, and the plans and surveys will be finished before the term of six months.

The sale of 5,000 "novillos" is reported in Uruguay at $14½.

Sites in the La Plata are now offering in the market at eighteen and twenty thousand dollars each; these investments have turned out most profitable up to the present, and investors generally double their money in these land purchases.

Telegrams from Rio de Janeiro note exchange on London at 21¾ and River Plate jerked beef at 310 to 400 reis per kilo.

We read in the London papers to hand that the whole of the first issue of capital of the Argentine sugar estate and Factories Company, Limited, has been subscribed and that the letters of allotment have been posted.

The heat on 'Change has been so oppressive of late that members can no longer drink the tepid water in the hall; members hope that Mr. Dolz will buy ice and fill the filters during these warm days; the expense would not amount to much and there is no disguising the fact that the wish is general; let us hope that it will be carried out immediately.

Freights continue firm at 20 fcs and 20s per bale; produce is freely offered but tonnage in port is excessive.

The wool markets shew no change; large quantities were sold to-day, and the South market ruled firmer than that of the Once.

Woolmen look forward with interest to the result of of the Havre wool sales; prices it is thought will fall, but we doubt much if the fall will much affect operations in this market.

Operations during afterhours ruled very limited; the closing rates of official hours were maintained. Dullness ruled supreme all over the line. The oppressive heat put a stop to all business.

Telegrams from Montevideo announce the sale of 3,000 salted ox hides from the "Sociedad Ganaderos," and 2,000 from Legrand's at 75; 2,000 American hides at 74.

From the Plaza Once de Setiembre we have the following:—

131 waggons arrived with produce.

The arrivals were:—
20,800 @ of wool
2,435 bags of wheat
1,384 bags of maize
376 bales of hay
440 bags linseed
200 bags turnip

and other produce. Market flat in general and little interest, owing to the rain in the morning.

In Bahia Blanca, 337,480 sq. mts., $413 m/n
In Lincoln, 1½ sq. leagues, $34,720 m/n
In Coronel Suarez, 4,000 hect., $525 m/n

The locomotive now runs from Pergamino to San Nicolas, but the line will not be inaugurated until next month. The earthworks from Pergamino to Rojas have been commenced and the extension is being pushed ahead rapidly. The bridge of the Western Railway across the river Arrecifes is not yet completed; it will be one of the finest bridges in the country.

The colonists of the Teodolina colony, the chacareros of Villa Colon, and nearly all the farmers of the North have completed the reaping and threshing of their grain. Threshing machines are much wanted in many parts. In Villa Colon, in this Province, troops of mares are still engaged threshing, and the grain is pretty good. The maize fields in the North and West are very dry; in many parts the maize is parched and farmers are looking forward for rain with much anxiety.

Sheep are selling in the North at 35 to 40$%, and cattle 'al corte' at 160 to 180$%. Large purchases have been made to stock outside camps.

Farmers in several parts of the North of this Province are suffering heavy losses in their maize fields, owing to the havoc made by a small worm, supposed to be the ysoca. This worm attacks the root of the maize stalk and especially those plants which are most deeply rooted. The worm is especially remarked in fields where formerly sheep and cattle corrals stood.

A large grocery store and hotel is being at present built in the Venado Tuerto by Messrs Estragumon and Zabala; the store will meet a great want in those parts. New settlers are starting on all the camps in the vicinity, and their wants are many.

The latest advices from London give the following, which may interest this market:—

"At the London Bankruptcy Court this morning the failure was announced of John Neil, of 42, Poultry, stock and sharebroker, trading under the style of Abbot, Page, Neil & Co. The liabilities amounted to £165,000. The assets were not yet estimated. Mr. H. Newson Smith, accountant, Walbrook, was appointed receiver and manager."

Of all the Argentine stocks that show recovery in the London market the Argentine Land Co. Shares stand first, shares that a few years ago were selling at 7s 6d and even less are now at £3 10, and the affairs of this company are now so prosperous that we note that the company is now a regular dividend paying concern. The *Financier* publishes the following:—

"The Central Argentine Land Company, Limited.—The wonderful prosperity of the Argentine Republic and its various Provinces continues. Land goes on rising in value, and no sooner does one landowner sell at a large profit than he finds he has sold too soon. This company has just announced it interim dividend, and the shareholders have the gratification of learning that it is 1s 3d per share, instead of 1s as heretofore. This is, therefore, an increase of 25 o/o. It is probable that the balance of dividend, which will be due in June, will also be increased. With judicious, careful management, and the policy of only supplying the demand for land as it arises at advancing prices, this company ought to prove a splendid success. According to the last accounts published, the land unsold seemed to amount to about 700,000 acres."

Our friends who are interested in the frozen meat question will read with interest the following late advices received by the mail:—

"Large arrivals of frozen meat from New Zealand.—On Saturday, the 15th ult., the clipper Opawa arrived in London from Invercargill, New Zealand, with a cargo of mutton in splendid condition. About 6,500 carcases were on board. This is the first consignment from that part of the colony. On Saturday, the 22nd ult., the clipper Mataura arrived from Auckland with a cargo of about 8,500 sheep in prime condition, making the second cargo of meat brought by the Mataura from New Zealand. Both vessels belong to the New Zealand Shipping Company (Limited), and are fitted with Haslam's patent refrigerators, manufactured by the Haslam Company, of Derby, who have fitted up a large number of steamers and sailing vessels engaged in the New Zealand meat trade. This trade is now firmly established, and will, no doubt, under careful management develop to large proportions."

St. Andrew's Scotch School.

The committee of management have much pleasure in informing Parents and Guardians of pupils, that through the exertions of the Home Committee, they have succeeded in securing the services of Mr William S. Connacher to fill the post of Head Master and of Miss Dale as Lady Teacher. There will thus be no interruption of the curriculum of the school through the retirement of Mr Hutton.

Mr Connacher and Miss Dale come among us with the highest Testimonials which the Committee have much pleasure in putting at the disposal of the public and may be obtained from Mr Grant, Cangallo 69.

The Christmas Vacation commences from the 22nd current, and the School will be reopened on Monday the 14th January, 1884.

The School Fees for next session have been arranged as follows:—

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.

Presta sobre hipoteca con reembolso á largos plazas.

Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

78—ALSINA—78
El Martes 22 de Enero de 1884
A las 2 en punto de la tarde

Venderemos a la mas alta postura y a los plazos arriba indicados 32 leguas de esplendido campo, ya celebre por sus ricos pastos tiernos, sus abundantes aguadas y la fertilidad de sus tierras.

Los numeros en venta son el 11, 19, 20, 21 y 22 de la letra A, y el 1, 2 y 9 de la letra D, Seccion 8, Territorio Nacional.

Todavia existen alli los vestigios de las Tolderias de los Ranqueles, sus rancherias, sus corrales y sus jagüeles de riquisima agua.

Estos campos y los inmediatos a la Ciudad de Buenos Aires, son los verdaderos

Campos de pasto tierno

Los primeros por haber estado en el poder tranquilo de los Indios por mas de un siglo, y los otros por haber sido ocupados por los cristianos.

Los campos de pastos duros son los de la zona intermediaria, donde ni el indio ni el cristiano se aventuraban a permanecer por temerse mutuamente.

Solo asi puede racionalmente esplicarse el hecho notable de que en la seccion octava se encuentran pastos tiernos iguales a los campos de adentro que valen hoy pesos 3,000,000 la legua.

El informe del agrimensor Alsina sobre estos campos dice textualmente asi:

"Estos campos que fueron ocupados por los indios Ranqueles se encuentran respecto de calidad y cantidad de pastos, montes, piso, etc, en identicas condiciones que los campos de Leubuco y Poitagüe, cuya superioridad es publicamente conocida."

"Dice el agrimensor Pico que los arboles de esta region son inmensos, entre ellos los hay que miden cuatro y media varas de circunferencia en su tronco principal abarcando con sus ramas un diametro termino medio de 32 varas."

Apesar que algunos colocan el Pueblo Victorica, ya una poblacion de 1500 almas, en el lote 23, los propietarios de estos campos tienen datos particulares de personas de esa localidad que les permiten declarar que se encuentra en el 22 el lote lindero, o sea en el corazon de estos campos.

Fuera de una infinidad de jagueles de agua riquisima el campo tiene las lagunas siguientes—Poitagüe, Aucamelué, Lui Carreta, Tirlin, Utra Trigoin, Echoué, Quillai Lauquen, Quitripil, Antiqueo, Guada y varias otras de lluvia sin nombre.

Por planos y folletos ocurrir a nuestra casa, Alsina 78.

Las condiciones de pago son ⅓ parte al contado, y el resto a una y dos años de plazo sin interes y con pagares hipotecarios.

El Jueves 14 de Febrero
A las 2 de la tarde

Venderemos a la mas alta postura y a los plazos y condiciones mencionados.

28 leguas kilométricas con 70,000 hectareas de muy buen campo de pastos tiernos y fuertes, propios para vacas y ovejas, con espléndidas aguas permanentes en algunos parajes y facilidad con otros para hacer jagüeles.

Los campos que ofrecemos se remataran por disolucion de sociedad, y por consiguiente sin base.

Los lotes son: letra C, núm. 6 con el pueblo General Acha y Ns. 19, y 22 y 33 de la Seccion 10ª, y lindando con los tres lotes anteriores y cada lote compuesto de 4 leguas kilométricas y a 5 leguas al Sud Oeste distante del Pueblo General Acha, la segunda Bahia Blanca del Sud, por su floreciente comercio y el gran desarrollo de la poblacion, pues cuenta ya en la actual con el servicio de dos galeras, la del señor Camacho (via del Sur) que sale de la Estacion "La Gama" F.C.S. los dias 10, 20 y 30 de cada mes tenindo sus agencias calle Moreno 243 y la del señor Negri, agencia Tacuari 9 y 11, que sale desde Chivilcoy los 9 19 y 29 de cada mes, y ambas Empresas hacen este servicio sin suvencion de ningun género lo que demuestra que puedan vivir y son sostenidas por el comercio y la poblacion del pueblo General Acha, que sera la Capital de la Gobernacion de una seccion de los Territorios Nacionales.

Como se vé, esto pueblo tiene comunicacion cada tres dias con la Capital y pronto sera diaria por medio del telégrafo en via de construccion y cuyos postes estan ya muy cerca.

Para demostrar la bondad de estos campos solo nos bastara mencionar las estancias existentes en la jurisdicion de General Acha:

Señores Anchorena, agrimensor Castex Lopez Osornio (en 3 cruzes), Real y Oliver (en Artehuco), Frisch-Patrick (Saeinas Grandes), Teves Tobio, Corvalan, Gimenez, de los Santos, Gadea, Loza y Lezcano (Chiihue),, D. Simon (Siguelco), Capdevila y Escandy Hepcipel y Maraco), Balcarce y Herera (Reneco Grande), Mater y Lessie (en Quini Molal) agrimensor Cascallar en (Pichi Rinanco) y muchos otros pobladores cuyos nombres no recordamos y ademas el espacio no nos permite estendernos mas sobre estos campos.

Los detalles minuciosos y datos estadisticos pueden verse en el folleto que publicamos con el correspondiente plano de las tierras que ofrecemos en venta y que esta a disposicion de los interesados en nuestra casa Alsina 78

78—ALSINA—78
El Viernes 25 del corriente
A las 3 de la tarde

Remataremos a la mas alta postura, por orden de su propietario.

El lote num. 28 de la 4ª Seccion de los terrenos cedidos por la Provincia de B. Aires al Gobierno de la Nacion compuesto de 10,000 hectareas.

Linda con el num. 17 del Sr D Gregorio Soler, el numero 29 de Martin L. Munro, num 42 del Sr D F Ramsay y Bell, num. 27 Riat Hnos, tomando parte de las Salinas Chicas.

La distancia de Bahia Blanca es de 10 a 11 leguas garantidas y la Comisaria de Salinas Chicas esta instalada sobre este mismo campo.

El campo es de muy buenos pastos y con aguada permanente.

Los lotes num. 27 y 42 estan poblados con haciendas vacuna y lanar y del otro lado del Sauce Chico y 6 leguas escasas esta la gran Estancia de los Sres. Ernesto Tornquist y Cia. con 80,000 ovejas, vacas y yeguas, etc.

La proximidad del puerto de Bahia Blanca es de suma importancia, pues facilmente se comprende que los gastos de conduccion para los frutos del pais son insignificantes en un trayecto de 10 leguas a recorrer.

Las comodas condiciones para el pago es otra ventaja que no debe perderse de vista, mitad al contado y mitad a seis meses de plazo con hipoteca del misma campo y sin interes.

Planos y mas datos pueden obtener en nuestra casa Alsina 78.

El Jueves 31 del corriente
A las 2 de la tarde

Remataremos a la mas alta postura y dinero de contado, por liquidacion de una sociedad:

Una legua cuadrada de campo superior para vacas y ovejas.

Existen en el campo 4 puestos y dista este solamente dos leguas del pueblo de Tapalque; linda al Norte con el Sr D Antonio Terreto, al Sud Estanislao Colman, al Este herederos de Jose Balcarce, hoy Esteban Villanueva, Emilio Fernandez y Jorge Gianola, al Oeste Daniel Burke. Como decimos mas arriba el campo es de primer orden, pues ha tenido mas de 12000 ovejas, cuya lana se he vendido este año alli a $82 arroba, las vacas han dado un aumento de 30 o/o.

Los arrendamientos que alli se pagan son $40,000 por legua al año.

Vendido el campo se remataran 600 vacas con 15 o/o de novillos al corte, y 1200 ovejas mestizas al corte.

Las haciendas deberan sacarse en el acto, siempre que no sea uno mismo comprador del campo y haciendas.

Las personas que desean ver el campo puedon dirijirse el Sr D. Daniel Burke, que linda con el mismo.

Por planos y datos ocurran a nuestra casa, Alsina 78, o a la calle Rivadavia 240.

A las 2 en punto

Remataremos a la mas alta postura y condiciones que se estipularan mas abajo.

46243 hectareas 7 areas y 67 centiareas igual a seis leguas, mas 4,972/10,000 de otra, situadas en el mapa del Departamento de Ingenieros de la Nacion con los numeros 23 y mitad de 18 bajo el nombre de Laura Bunge de Pacheco.

Linda al campo con establecimientos de gran importancia como los de los Sres. Emilio V. Bunge, Zomborain Hnos, Salas, Cernadas, Carlos S Guerrero, Chas e hijos, Rosa Demaria, del Valle, (Italo) Drabble Hnos., y varios otros. Como se ve este campo esta situado en medio de Establecimientos muy importantes ya formados y otros en formacion.

La galera que va a Gainza y de alli a lo del Sr Bungo o Italo pasa muy cerca de este campo y los interesados pueden inspeccionarlo con toda comodidad.

Otra ventaja importantisima es la proximidad de la gran linea ferrea Trasandina que pasa a muy corta distancia de alli y que tendra a no dudarlo una Estacion ya sea en Gainza que solo dista dos y media leguas de este campo, o otro punto mas proximo de la gran Colonia Irlandesa, es sabido que se estiende de aquel lado, pues las recientes ventas hechas por los Sres. Selez y Cernadas, son en su mayor parte o Estancieros de esa nacionalidad, que como se sabe llevan consigo el bienestar adelanto y aumento en la fortuna.

Las condiciones para la venta son sin base y el pago se hará una tercera parte al contado y el resto a tres y diez meses de plazo sin interes y pagares hipotecarios sobre el mismo

La venta se hará en lotes de una legua cen opcion a mas.

Las tierras que se ofrecen en venta, se encuentran ubicadas en la Provincia de Santiago del Estero sobre el deslinde con la de Santa Fe.

Su situacion es inmejorable y dificilmente podria ofrecerse a la venta una estension de tierra que reuna las condiciones de las que van a rematarse. Estan situadas al norte de la Provincia de Santa Fe y a ocho o diez leguas de las florecientes colonias de esta Provincia y a muy poca distancia de los importantes establecimientos de los Srs. Ramayon y Escalada, Lezama y otros.

Dentro de muy breve tiempo las colonias invadiran estos campos que por su feracidad y situacion se prestan cual ningunos otros a la agricultura.

La calidad de estas tierras es excelente. Estan cubiertas de una capa de tierra vegetal de sesenta a ochenta centimetros y en algunas partes el espesor de estas capas pasa de un metro. Las aguas subterraneas se encuentran a cuatro, cinco y seis metros de profundidad, y en todos los jagüeles que se han hecho hasta ahora en esta region, se ha encontrado agua dulce. Abundan ademas las aguas superficiales en pequeños arroyos y lagunas.

Estos campos son parte de los comprados ahora muchos años por D. Adolfo E. Carranza al Gobierno de Santiago del Estero y cuya mensura y plano fueron levantados en los años 1859 y 1860 por el ex-Ingeniero Nacional D. Juan Hildebrano.

En el año de 1873, a solicitud de sus propietarios entonces el Dr. D. B. de Irigoyen, D. Alejo Arocena, D. Anacarsis Lanus, D. Ambrosio Lezica y Don Adolfo E. Carranza, fueron prolijamente mensurados y amojonados en suertes de cuatro y seis leguas por el Agrimensor Publico D. Valentin Virasoro, mensura y division que fué ordenada y aprobada por el Gobierno de Santiago del Estero.

El espediente original se encuentra archivado en el Ministerio de Gobierno de la Provincia de Santiago, pero un testimonio publico de este espediente con todas sus ocupaciones, esta depositado en esta ciudad en la Oficina de Registro del Escribano D. Ramon F. Lagos, (Pasage Roverano, escritorio num. 34 altos) donde los interesados pueden inspeccionarlo.

Las ciento sesenta y siete y media leguas que se ofrecen en venta, estan divididas en treinta y una suertes de cuatro leguas, cinco de seis leguas, dos de cuatro leguas y una fraccion, una de tres leguas y media y otra de una legua y media.

Todas estas suertes estan perfectamente amojonadas, teniendo cada mojon gravados los numeros de las suertes a que corresponde. El agrimensor señor Virasoro ha adjuntado en su diligencia de mensur los datos principales de la naturaleza de cada una de estas suertes y a pedido de uno de los interesados dio un informe especial sobre las tierras que van venderse que en su mensura estan señaladas y divididas en tres lotes con los numeros 1, 2 y 4 de la seccion del Este.

No publicamos aqui esos informes por su estension, pero los interesados los encontraran en el folleto que hemos publicado y puede obtenerse en nuestra casa Alsina 78.

Esos informes son muy minuciosos y dan una idea exacta de la calidad de estos campos y ellos fueron pasados a los Sres Bates, Stokes y Ca. por cuenta de quienes el agrimensor Sr Virasoro practico la mensura.

Desde la ciudad de Santa Fe a estos campos hay solo treinta y dos leguas. Desde el lote 100 al pueblo de Reconquista, centro de colonias y establecimientos importantes hay veinte y tres leguas.

Ademas del informe del agrimensor Sr Virasoro y del que hemos transcrito los parrafos que se refieren a la estension de tierras que ofrecemos en venta, pueden los interesados consultar el espediente de mensura que se encuentra en poder del escribano Sr Lagos, donde encontraran datos sobre cada una de las suertes.

La riqueza de estas tierras por su feracidad sus ricas aguadas y sus montes esta fuera de toda ponderacion.

Podemos asegurar que antes de dos o tres años estara colonizada la mayor parte de esta zona, pues, las colonias de Santa Fe, como puede verse en el mapa adjuuto, avanza mas rapidamente hacia ese lado, que es donde estan las tierras mas ricas para la agricultura.

Contribuira poderosamente para el desarrollo de esas colonias la proximidad del puerto de Reconquista, sobre el Rio Parana, como tambien el Ferro Carril que se propone construir la empresa de los Sres. Murrieta y Ca.

Es publico y notorio que estos señores acaban de enviar a Santa Fe al Señor Don F. E. Harman, distinguido agronomo ingles, con el objeto de estudiar esas tierras que van inmediatamente a ser colonizadas en gran escala.

Estan depositados en el Banco de Londres y Rio de la Plata los fondos necesarios, no solo para los gastos preliminares, sino aquellos que se requieren para la instalacion de varios grandes establecimientos de campo.

En vista de estos antecedentes, es indudable, que antes de muy poco tiempo, esas tierras valdran de 20 a 30 mil pesos fuertes la legua, precio que hoy se obtiene facilmente en las ventas de las tierras proximas a estas para colonias.

Por planos y folletos ocurrir a nuestra casa Alsina 78.

Remataremos a la mas alta postura y condiciones que mas abajo se estipulan, los siguientes campos nacionales:

10,000 hectareas ubicadas en la IV Seccion Letra A, lote num. 14.

20,000 hectareas, ubicadas en la X Seccion, Letra B, lotes num. 24 y 25.

La primera fraccion queda como a 25 o 28 leagues de una de las Estaciones del Ferro Carril del Sud de Bahia Blanca y de consiguiente puede decirse a 1 dia escaso de la Capital. El campo es quebrado, muy abundante en pastos, siendo estos mezclados, predominando un pasto fuerte de excelente engorde.

Hay monte de calden y algarrobo, siendo la parte Norte del lote mas montuoso, y mas pastosa la parte Sud. Tierra algo arenosa pero muy buena y segun las opiniones de las personas que han informado sobre esos campos por haber recorrido toda la seccion, es tal vez el mejor lote de ella.

En cuanto a los informes de las 8 leguas de la X Seccion, son mas o menos iguales.

Estas campos queda muy cerca de los que acaba de vender el Sr Tornquist al Sr Bernasconi y a la gran estancia del primero de estos señores uno de los mas grandes Establecimientos de la parte Sud de la Provincia.

Las grandes vias ferreas que deben arancar del gran puerto de Bahia Blanca y que cruzaran la inmensa zona de tierras Nacionales, encerrandolas un vasto circulo de hierro y que terminaran en Antuco (Chile) Ville Mercedes, San Luis, etc, tienen forzosamente que impulsar y dar gran valor a todas estas tierras.

La adquisicion de estos campos esta al alcance de todos y las condiciones son ventajosas la mitad al contado y el resto a 12 y 24 meses (1 y 2 años) de plazo sin interes, con pagare hipotecario.

No hay base, ni limite para la venta.

VENTA PARTICULAR
Liquidacion de un contrato de arrendamiento y una Sociedad.

Se venden, particularmente, las majadas del Establecimiento denominado Rincon de Ajo, en el Partido del mismo nombre, pertenecientes a los Sres. Musgrave, O'Grady & Co. La venta se hace para desocupar el campo y liquidar la Sociedad.

Las majadas son diez, con un total de veinte mil cabezas maso menos.

Hay una majada de dos a dos mil quinientas Lincoln, de primera clase, servida siempre por carneros importados.

Otra majada de dos mil mestizos Lincoln con su dotacion de padres.

Y otras dos majadas servidas por padres Lincoln.

El resto es de cuatro majadas Merinas, y dos invernadas de capones en su mayor parte, y una proporcion de ovejas.

Todas las majadas tienen su dotacion de padres

Las majadas son estacionadas debiendo principiar la paricion el 25 de Marzo.

Se vende en un solo lote o en majadas
A eleccion del Comprador

Siendo tan conocida la lana de estas ovejas por su calidad especial y el alto precio obtenido siempre en plaza, es inutil decir mas en favor de ellas que pertenecen a la sociedad arriba mencionada.

Office of *The Glasgow Herald*, Glasgow, 10th Nov., 1883

Gentlemen,

In connection with the Great Fire in Buchanan Street and Mitchell Street which besieged our premises on Saturday night last, I can say without reserve that your handy "Rapid" Fire-Engines, of which we have seven, did most invaluable service in the hands of our men by preventing the fire catching and in extinguishing it where it was burning. At one of the most critical moments, when the flames had seized upon one of our side rooms and were about to spread to the heart of the building, one of your Machines was applied to the burning parts with the most effectual and gratifying result.

I may add that had one or two of these Extinguishers been upon the roof of our neighbour, Mr Jenkins, the probability was that his building would have been saved, and we would thereby have been preserved from the extreme jeopardy we were in.

Yours truly,
(Signed), ALEXANDER SINCLAIR.
To Messrs. R & J Jarvie, 19 Stobcross Street, Glasgow.

Extract from *Chambers's Journal*, 26th May, 1883.

"Knowing as we do that prompt measures taken at the first may save the premises, we have introduced into those of this Journal half-a-dozen handy little portable Fire-Extinguishers, termed the 'Rapid,' which seem all that can be desired. They are manufactured by R & J Jarvie, 19 Stobcross Street, Glasgow.
